

## POINT-OF-CARE PHYSICIAN DISPENSARY PROGRAM

- Comprehensive turnkey solution to filling patients' scripts at office visit
- No inventory purchase requirements
- The UNYTER HaaS™ (Healthcare as a Service) System includes credentialing, purchasing and inventory management, logistics, billing and collections, etc...) needed for each location to maintain a customized Dispensary.
- Bundled software license/equipment lease
- Compliance lies at the heart of the dispensary in everything we do
- Credentialing, legal filings, software licensing and NCPDP approval
- All billing and collections is integrated into the Dispensary software
- We prepare and file all necessary Federal and state filings
- Practices make the profit on the meds they prescribe – not the pharmacies
- Initial formulary is top 20 scripts, and custom formulary grows over first 90 days
- Program works for generic and brand drugs. Specialty drugs handled separately.
- Drugs are pre-packaged so there's no pill counting or pouring
- Product availability includes over 2,500 meds including injectables, creams and liquids
- Approved by American Medical Association, DEA and FDA
- Increased clinical outcomes (30% of all scripts never get filled)
- All dispensed medications are registered with PBM (Pharmacy Benefit Manager)
- Integrated with EHR e-prescribing modules like SureScripts
- ePedigree provided with each medication

- In business since 2008
- Approved supplier to DOD, VA and US government under GSA contracts
- SDVOSB entity (Service-Disabled Veteran-Owned Small Business)
- Physician Dispensary Program (PDP™) launched July 2017
- Bio Intel Group is the exclusive sales and marketing partner of the Physician Dispensary Program (PDP™)
